Tour Code: AMH-PRC_03

Caving (Gua Tempurung)

One of the most majestic white marble and limestone towers in Malaysia is the Gunung Tempurung. Concealed within this limestone massif is an intricate system of caves of various dimensions honeycombed inside the limestone hills. These caves are actually a breathtaking gallery of stalagmites and stalactites and other amazing rock formations, which are superb speleological wonders found only in this part of the world.

Take a challenging two and a half hour tour to the Top of The World (Platform 5), and back through the underground River.
